

Cumulative Index, 1966-1968

Page numbers of symposium and article titles are in **boldface type**.

- ABDOMEN**, calcification(s), in plain film examination of biliary tract, 1966: Dec., 464
 fetal, masses in, dystocia due to, 1967: April, 8
 plain, roentgenograms, in examination of biliary tract, 1966: Dec., 463
 in traumatic lesions of kidneys, 1966: Aug., 435
 of urethra, 1966: Aug., 449
 of urinary bladder, 1966: Aug., 441
 trauma, in children, 1966: Aug., 300
 roentgenologic evaluation, 1966: Aug., **415-431**
- Abdominal** roentgenogram, in salt-losing form of adrenogenital syndrome, 1967: Aug., 208
- Abortion**, threatened, oligohydramnios in, 1968: Aug., 289
- Abruptio placentae**, arteriography in, 1967: April, 126
- Abscess**. See also organ involved.
 retropharyngeal, in infants and children, 1968: Aug., 271
- Abused child syndrome**, 1966: Aug., 289
- Acetabular angles**, small, and associated diseases, 1968: Aug., **215-221**
- Acetabular index**, in evaluation of hip fracture or dislocation, 1966: Aug., 249
- Achondroplasia**, differential diagnosis, 1968: Aug., **223-235**
 sella turcica changes in, 1966: April, 89
 tarda, 1968: Aug., 227
- Acrocephaly**, Apert's skull size and shape in, 1966: April, 22
- Acromegaly**, mineral content of bone in, 1967: Aug., 290-293
 radiologic findings in, 1967: Aug., 306-311
- ACTH**, radioimmunoassay of, 1967: Aug., 325
- Adamantinoma**, pituitary. See *Craniopharyngioma*.
- Addison's disease**, 1967: Aug., 211-212
- Adenoids**, hypertrophied, 1968: Aug., 267
- Adenoma**, chromophobe, sella turcica changes due to, 1966: April, 94; 1967: Aug., 311
 of endocrine glands. See *Polyadenomatosis of endocrine glands*.
- pituitary**, calcification in, 1966: April, 85
 radiation therapy, 1967: Aug., 336-341
 sella turcica changes due to, 1966: April, 81, 85
- Adenomyoma and adenomyomatosis**, of gallbladder. See under *Gallbladder*.
- Adrenal glands**, calcification, in chronic primary adrenocortical insufficiency, 1967: Aug., 211
 in functioning tumors, 1967: Aug., 221
 in tumors, 1967: Aug., 228
 cysts, 1967: Aug., 216-218
 diseases, 1967: Aug., 189, **205-220**
 tumor of, functioning, identification of, 1967: Aug., **221-230**
- Adrenal insufficiency**, acute, 1967: Aug., 211
- Adrenocortical insufficiency**, primary, chronic, 1967: Aug., 211-212
- Adrenocorticotropin**, radioimmunoassay of, 1967: Aug., 325
- Adrenogenital syndrome**, 1967: Aug., 207-209
- Aged persons**, cerebral blood flow in, 1967: Dec., 366
- Aged persons (Continued)**
 sella turcica changes in, 1966: April, 86
- Agensis**, renal, bilateral, oligohydramnios with, 1968: Aug., 283
- Air studies**. See *Pneumoencephalography, Ventriculography*, etc.
- Aldosterone secretion**, radioisotopes in assessment of, 1967: Aug., 234-235
- Aldosteronism**, 1967: Aug., 227
 primary, 1967: Aug., 209-211
- Alkylating agents**, for malignant disease, 1968: April, 91
- Amniocentesis**, arteriography, preceding, 1967: April, 126
- Amniography**, in diagnosis of fetal abdominal masses, 1967: April, 8
 in placental localization, 1967: April, 53
 technique, 1967: April, 53
- Amnion**, abnormalities, neonatal defects associated with, 1968: Aug., **279-293**
 nodosum, 1968: Aug., 289
- Amniotic fluid**, composition, volume, formation, disposal, 1968: Aug., 279-282
 spectrophotometric analysis, in selection of patients for intrafetal transfusion for erythroblastosis fetalis, 1967: April, 68
- Anastomoses**, vascular, cortical leptomeningeal, 1967: Dec., 379
 extra-axial, 1967: Dec., 378
- Anatomy**, knowledge of, in diagnosis of trauma, 1966: Aug., 246
- Anemia**, hemolytic, skull changes in, 1966: April, 15
 iron deficiency, skull changes in, 1966: April, 15

Anencephaly, polyhydramnios due to, 1968: Aug., 283

Anesthesia, in peripheral angiography, 1967: Dec., 473

Aneurysm(s), aortic sinus, blood flow and, 1968: Dec., 322

arterial, intracerebral, angiography in, 1966: Aug., 338

berry, rupture of, subdural hematoma associated with, 1966: April, 70, 217

dissecting, 1967: Dec., 497-504

in ischemic disease of limbs, angiographic features in, 1967: Dec., 481

intracavernous, of carotid artery, 1966: April, 105

of internal carotid artery, sella turcica changes due to, 1966: April, 86

intracranial, 1966: April, 217-233

pathology, 1966: April, 217

radiologic diagnosis, 1966: April, 218

rupture of, complications, 1966: April, 226

of renal artery, as cause of renal ischemia, 1967: Dec., 555

of thoracic aorta, post-traumatic, 1966: Aug., 404, 406, 411

Angina pectoris, arteriographic evidence of coronary disease and, 1967: Dec., 465

Angiocardiography, in congenitally bicuspid aortic valve, 1968: Dec., 415

in cystic medial necrosis of ascending aorta, 1968: Dec., 442

in isolated ventricular septal defects, 1968: Dec., 357

in persistent atrioventricular canal, 1968: Dec., 347

in pulmonary atresia with intact ventricular septum, 1968: Dec., 379

in pulmonic stenosis, 1968: Dec., 372-375

in tricuspid valve abnormalities, 1968: Dec., 383-398

left ventricular, in endocardial cushion defects, 1968: Dec., 343

right ventricular, in cyanosis with decreased pulmonary vascularity and cardiomegaly, 1968: Dec., 364

Angiofibroma, nasopharyngeal, in infants and children, 1968: Aug., 268

Angiography. See also *Arteriography*.

Angiography (Continued)

brachial, percutaneous, in evaluation of cerebrovascular disease, technique, 1966: April, 132

brachiocephalic, complication during, 1967: Dec., 396

in cerebral ischemia, complication in, 1967: Dec., 395, 396

carotid, left common, technique, 1966: April, 135

cerebral, in evaluation of cerebrovascular disease, 1966: April, 131-144

of head injuries, 1966: Aug., 335

technique, 1966: April, 131

venous phase, diagnostic value in mass lesions of brain, 1966: April, 117-130

hepatic, in liver injury due to blunt abdominal trauma, 1966: Aug., 425

practical applications and demonstration of color subtraction technique, 1966: Dec., 571-582

in cerebral ischemia, 1967: Dec., 370

in diagnosis of adrenal disorders, 1967: Aug., 190

in diagnosis of traumatic lesions of head and neck, 1966: April, 53

in idiopathic hypertrophic subaortic stenosis, 1968: Dec., 423-435

intracranial. See *Angiography, cerebral*.

normal left ventricle and, 1968: Dec., 425

of vessels of lower torso, technique, 1967: Dec., 409

peripheral, in ischemic arterial disease of limbs, 1967: Dec., 467-496

right ventricular, in pulmonic stenosis, 1968: Dec., 368

Angiology. See *Angiography; Arteriography*.

Angioplasty, transluminal. See *Transluminal recanalization*.

Ankle, articular relationships, lines and angles, 1966: Aug., 248

Ankle mortice, 1966: Aug., 248

Annulus fibrosus, protrusion, differentiation from prolapsed nucleus pulposus, 1966: April, 160

Anus, imperforate, gynecologic aspects, 1967: April, 158

Aorta, ascending, cystic medial necrosis, radiology of, 1968: Dec., 437-449

Aorta (Continued)

ascending, dissection, in cystic medial necrosis, 1968: Dec., 443

coarctation, with congenitally bicuspid aortic valve, 1968: Dec., 414

with left-to-right shunt, blood flow and, 1968: Dec., 324

obstruction of, types of, 1967: Dec., 411

rupture, relation to fracture of sternum, 1966: Aug., 258

thoracic, post-traumatic aneurysm, 1966: Aug., 404, 406, 411

traumatic rupture, 1966: Aug., 403-414

visceral branches of, obstruction of, 1967: Dec., 422

Aortic sinus, aneurysm, blood flow and, 1968: Dec., 322

Aortic valve, bicuspid, congenital, complications, 1968: Dec., 409-421

congenital, radiologic features, 1968: Dec., 414

congenital, with mitral valve disease, 1968: Dec., 418

calcified, complications, 1968: Dec., 414

disease, vs. rheumatic endocarditis, 1968: Dec., 400

in cystic medial necrosis of ascending aorta, 1968: Dec., 442

stenosis, when congenitally bicuspid, 1968: Dec., 411

with left-to-right shunt, blood flow and, 1968: Dec., 324

Aorticopulmonary septal defect. See *Septal defects, aorticopulmonary*.

Aortography, in adrenal tumors, 1967: Aug., 223, 228

in diagnosis of traumatic rupture of thoracic aorta, 1966: Aug., 410, 411

in pheochromocytoma, 1967: Aug., 226

thoracic, current method of, 1967: Dec., 454

Arachnoiditis, of spinal cord, 1966: April, 199

Arnold-Chiari malformation, 1966: April, 151, 193

Arteriography. See also *Angiography*.

adrenal, 1967: Aug., 223

in adrenal tumors, 1967: Aug., 228

carotid, in diagnosis of anterior clinoid meningioma, 1966: April, 105

Arteriography (Continued)

- carotid, in diagnosis of anterior clinoid meningioma, of chromophobe adenoma, 1966: April, 94
- of hypothalamic tumor, 1967: Aug., 189
- of tuberculum, sellae meningioma, 1966: April, 103
- cerebral, introduction of, 1966: April, 5
- coronary, clinical findings and, correlation of, 1967: Dec., 465
- current methods of, 1967: Dec., 453
- in myocardial ischemia, 1967: Dec., 453-466
- indications for, 1967: Dec., 456
- percutaneous transfemoral, 1968: Dec., 467-492
- selective, 1967: Dec., 454, 464
- technical considerations in, 1967: Dec., 463
- "Extra-Large Field," 1967: Dec., 471
- program for, 1967: Dec., 476
- hepatic, prior to regional perfusion, 1966: Dec., 575
- in diagnosis of parathyroid tumor, 1967: Aug., 190
- of traumatic lesions of spleen, 1966: Aug., 425
- in gynecology, 1967: April, 133-149
- in obstetrics, 1967: April, 121-131
- renal, in aldosteronoma, 1967: Aug., 210, 211
